# SPIRIT OF THE MOUNTAINS - THE SNOW LEOPARD

60' (ENG)

**Watch one of the most secretive species in action.**

In Spiti Valley's stunning high-altitude desert landscape, we follow the snow leopard Karma and his cub and witness this secretive species in action. We catch a glimpse of some never seen before intimate behaviour - from hunting and feeding to courtship and mating. We even witness the tragic death of Karma and the rise of a new ruler, named Namka.

SPIRIT OF THE MOUNTAINS - THE SNOW LEOPARD is a more species-based and comprehensive version of the two-parter, IN SEARCH OF SNOW LEOPARDS - CHASING SHADOWS.
