ATTENBOROUGH'S ANT MOUNTAIN

52' (ENG, GER)

The impressive mountains of the Swiss Jura set the stage for a natural drama – the epic tale of two cities. On the surface, they appear almost identical – but over the next year, these cities will experience dramatically different fortunes.

David Attenborough takes us deep into the heart of these ant societies, to witness an unfolding drama. Meet the royal families and their loyal citizens – queens, workers, scouts and soldiers – in times of peace and war. 4K-capable endoscopes and specially designed miniature 4K lens systems help explore these miniature empires in ways that have never been seen before – from an ant's eye view!
