

NATURE . WILDLIFE

A NATURAL AFFAIR – THE HUMAN/NATURE CONNECTION

50' (ENG, GER) 

From lifeforms on and in our bodies, to caretakers of nature; from accidents to strategies; a human-nature connection exists throughout our lives.

We humans have a fascinating and occasionally somewhat surreal relationship with the animals and even plants that surround us. This film explores certain examples of this relationship, areas in which the human and the natural world meet in surprising ways! What are we able to learn from nature? How can nature profit from our existence? And who needs who to survive?

Original Title: Ein schräges Verhältnis
 Year: 2019
