1. Sylt – Waves, Wind and Tides

Endless beaches, dunes, the heath and the Wadden Sea - the diversity and beauty of the landscape makes Sylt a place of longing for many people. But Germany's largest North Sea island is also a paradise for numerous animal and plant species. The documentary shows the fascinating nature of the island, far away from the tourist hustle and bustle.

2. Rügen – White Cliffs and Green Forests

Rügen is one of the most popular holiday destinations among Germans. But away from the tourist crowds, there is unique nature to discover here: The largest uninterrupted beech forest in the Baltic region, for example, or remnants of real primeval forests. This documentary captures the magic of Germany's largest island in spectacular images.
