## IN SEARCH OF THE SELF

3 x 30' (GER, FRE, 1 Ep ENG subs)

**From classical antiquity stemmed a veritable amount of worldly wisdom. In this series we will see how the works of Socrates, Seneca and other philosophers have translated into modern life.**

Nietzsche, who structured his life on the notion of being true to himself, had imbibed the teachings of this time. His principle - getting to know oneself - is the key to living an authentic life. In this series, we will encounter people, who have based their lives on philosophical ideas, who found their selves, love and happiness.
